66% Nonprofits • 16% Businesses • 8% Government Agencies • 10% Individuals

Coming in 2019..

- Community Council will present the nationally-recognized Bridges Out of Poverty workshop to engage the community in new initiatives to address and reduce poverty issues in our region. A cross-sector planning team has been assembled, including representatives from education, law enforcement, social services and healthcare.
- Emerging Leaders programs are being redesigned to better address St. Charles County leadership development needs.
- A new Member Advisory Committee will help Community Council engage current members, reach new prospects and develop programming that addresses the interests and needs of our member organizations.

The Tri-County Continuum of Care opened the Coordinated Entry case management center in January 2018. Coordinated Entry provides centralized access to assistance for people who are homeless or at imminent risk of homelessness. Through a research-based, coordinated assessment process, callers receive housing stabilization resources tailored to their specific needs, including referrals to HUD-funded housing programs and other services offered by community organizations, as appropriate.

The Continuum of Care consists of 50+ organizations participating in community planning efforts to end homelessness in the Tri-Counties (St. Charles, Lincoln and Warren)

3,312

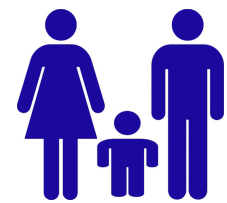

People were assessed for services through Coordinated Entry in 2018
36% were children

How Can You Help?

These are some of the unmet needs we have identified when serving people experiencing homelessness in our community:

Affordable Housing: access to affordable housing units and/or vouchers for clients needing permanent supportive housing.

Case Management: more intensive housing navigation, follow-up and landlord support to house highly vulnerable people.

Emergency Shelter: especially for men, those with physical disabilities and/or special needs (mental health, substance use, autism) and medical respite care.

Outreach: regular contact with people on the streets until they can be stabilized in housing.

Rental Assistance: both long- and short-term for persons who are literally homeless and those needing homeless prevention funding.

Housing Locators/Navigators: to find landlords willing to accept clients with housing barriers and to help clients find appropriate housing.

Additional Supportive Services, including:

Transportation
Mental Health Care
Case Management (service access)
Job Search & Start Assistance
Cell Phones/Minutes
